

[For household garbage]

- Uonuma City (all areas)
- Minami-Uonuma City (Yamato area)

Disposal times by 8:00 a.m. on the day of collection

Do not take out garbage except on a collection day.

- Leave your garbage at the designated place in time to be collected by the city garbage collection truck. Refer to the "Household garbage calendar" for garbage collection days.
- To dispose of oversized garbage, a reservation is needed.

Garbage separation and disposal instructions

Eco-plant Uonuma

Please follow the rules for garbage disposal

Put out the garbage at the designated collection sites

All residents must put out their garbage at the designated collection sites (such as "Gomi Station"), or deliver the garbage directly to the Eco-plant Uonuma. It is against the rules to dispose of garbage at any collection site (such as "Gomi Station") outside the area you live in.

Sort garbage types properly before discarding (see page 2- for detail)

Improperly sorted garbage will not be collected. Please sort your garbage in the proper manner, otherwise community leaders will have to go through all the trouble of doing it for you. *Garbage with a yellow sticker must be returned to the owner, re-sorted in the proper manner, and put out on another collection day.

Check the collection day before you put garbage out

Collection schedules vary by district. Check the "Household garbage calendar" before putting garbage out. Collection hours may change significantly due to weather and route changes. Put garbage out by 8:00 a.m. on collection days.

Tie the garbage bag tightly before disposing of it.

If the bag is tied loosely, the contents may come out and contaminate the surroundings or interfere with collection. Tightly tie the bag to prevent the contents from spilling or sticking out.

Making garbage disposal smarter.
Garbage sorting app for smartphones

Eco-Uo

Scan the QR code below to download the app.

(for iOS)

(for Android)

- Garbage Collection Calendar
- Garbage Sorting Dictionary
- Garbage Disposal Procedure

Many useful features!

Q: What is "Eco-Uo"? → The app "Eco-Uo" has the following features and it's **downloadable for free.**

Garbage Collection Calendar

You can see the calendar on the home screen and check your area's collection days at a glance.

Garbage Sorting Dictionary

For house cleaning, moving or daily disposal. You can look up how to sort and dispose of garbage anytime from your smartphone.

Garbage Disposal Procedure

Having trouble finding how to dispose of garbage? Use your smartphone to find out.

Alert Feature

You can set whether to receive garbage disposal reminder and irregularity information.

Burnable garbage

Kitchen waste

Drain away as much liquid as possible.

Disposable diapers

Dispose of any fecal waste in the toilet.

Toys

Made of plastic, wood, etc.

Charcoal briquettes, other charcoal substances

Douse with water before disposal.

CDs, DVDs, Cassettes, video tapes, etc.

Clothes, shoes, cloth items

*These items are collected separately in the Yamato area.

Cooking oil

Absorb the oil in paper, or use a solidifying agent before disposal.

*Collected separately in Yamato area.

Inquiries : Minami-Uonuma City Waste and Recycling Affairs Section, TEL 025-782-0339

Tree branches, leaves

Cut branches with a diameter less than 5 cm and a length less than 50 cm and place them in the designated garbage bags.

Styrofoam items

Break items into pieces small enough to fit into the bag.

Rubber products

Sewing needles, Fishing hooks

For medical needles, please inquire Eco-plant Uonuma.

Plastics

Plastic products such as wash basins, Tupperware, CDs, DVD cases (items which can fit into the designated garbage bags).

Disposable razors

Wrap the blade in paper.

Disposable lighters

Completely discharge any gas from the lighter

When disposing of burnable garbage, use the designated garbage bag (blue).

Burnable garbage (blue)

No.1 garbage bag	10 L	20 bags	320 yen
No.2 garbage bag	20 L	20 bags	460 yen
No.3 garbage bag	45 L	20 bags	640 yen

Do not mix garbage types!!

- Due to the risk of explosion during incineration, do not place any poisons, agricultural chemicals, gas cans, etc. in the garbage.
- Seat cushions (long type), blankets, futons, and curtains are considered oversized garbage even though they are made of cloth.

Non-burnable garbage

Dry cell batteries

Button type batteries and rechargeable batteries are categorized into "oversized garbage".

Wrap any broken parts in paper since they may tear the garbage bag.

*Collected separately in Yamato area.

Inquiries : Minami-Uonuma City Waste and Recycling Affairs Section, TEL 025-782-0339

Tableware, porcelain, pottery

Glass items

Wrap broken glass in paper since it may tear the garbage bag

Waste metal cans

Empty all contents of them.

Cans and bottles with a diameter of 15 cm or less. (Items more than 15 cm are considered as "oversized garbage")

Waste glass bottles

Bottles 1.8 liters or less

Spray cans, gas cassettes

Do not puncture the cans

Sorting change : Dispose as oversized garbage (No.6 garbage bags).

Incandescent light bulbs, LED lamps

Note: Use No.6 oversized garbage bag for all fluorescent lights (tubes).

Place them in the specified non-burnable garbage bags (green).

Non-burnable garbage (green bags)

No.4 garbage bag	25 L	10 bags	200 yen
No.5 garbage bag	45 L	10 bags	400 yen

Do not mix garbage types!!

- Button batteries should be disposed of in No. 6 oversized garbage bags because some contain mercury (a toxic substance).
- Separate any wires and cords. If they are included with the machines, they may become entangled and cause a mechanical breakdown. *Use No.6 oversized garbage bags.
- Use No. 6 oversized garbage bags for umbrellas and fluorescent lamps. (The items are permitted to stick out from the garbage bag.)

Dispose of electronic equipment containing rechargeable batteries in oversized garbage (No. 6) bags due to the risk of ignition.

Examples : smart phones, electric shavers, electric toothbrushes, portable cleaners, mobile batteries, electronic cigarettes, etc.

Plastic containers and plastic packaging (recyclable resource)

Place the following items in a separate bag. ① PET bottles, ② White plastic trays, ③ Other plastic containers

1 PET bottles

Make sure they have the recycle logo

Juice, mirin (sweet cooking wine), men tsuyu (noodle sauce), sake, etc.

Please remove the labels as well.

Do not cut vertically.
Do not flatten vertically.

2 White plastic trays

Make sure they have the recycle logo

Trays for fish, meat, natto and mushrooms

Wash before disposal.

3 Other plastic containers

Make sure they have the recycle logo

Colored trays

Containers for Tofu.

Plastic shopping bags

Dairy product containers

Shampoo and rinse bottles (The pump part is burnable garbage.)

Mikan orange nets

Remove the cap and rinse the inside of the bottle, then place in a garbage bag. (Place the cap and the labels with "other plastic containers")

Do not add any items other than PET bottles.

"Containers" are defined as items into which products are placed (including bags). "Packaging" is defined as item used to wrap products. "Plastic containers and packaging" are items which are no longer needed after the product has been removed. These items display the PET logo.

Rinse and dry the item.
Items that can't be cleaned → Burnable garbage

Laundry detergent containers

Oil containers

Refillable bags

PET bottle label

Instant noodle cups

Mayonnaise and ketchup containers

Separate the items into three different types: ①PET bottles, ②White trays, ③Other plastic containers.

Place them in the designated garbage bags for containers and packaging (yellow).

Containers and packaging (yellow)

No.1 garbage bag	10 L	20 bags	160 yen
No.2 garbage bag	20 L	20 bags	220 yen
No.3 garbage bag	45 L	20 bags	300 yen

Do not mix garbage types!!

Dispose of the following plastic items as "Burnable garbage".

- Greasy snack bags, etc.
- CD and DVD cases
